

UNMATCHED

From financial institutions to telecommunication giants and healthcare providers, some of the largest and most valued companies in the world have realized huge benefits using Nlyte.

TIME SAVINGS

The Nlyte solution provides equipment modifications to optimize data centers and meet audit and compliance needs quickly and efficiently.

Sebastien Doneux
IT Operation Manager
Proximus

“Previously, it might have taken three or four hours to figure out a problem; now we have it identified within minutes. We know exactly what to do.”

<p>35% on Tech Refresh</p>	<p>75% on Audits/ Scans</p>	<p>95% on Problem Identification</p>	<p>85% on Hardware Audit</p>

Josh Neyer
Sr. Director, Global Data Center Infrastructure
TransUnion

“We brought everybody together at the table. All of a sudden, everybody seemed to have gotten along a lot better. And installation took almost no time whatsoever, where before it may have taken 2-3 months. You shouldn't take that long to install a server...That's what I think is my fast measure of ROI: Our team is working better together, the equipment we are paying tens of thousands, if not hundreds of thousands, for is being installed and utilized much quicker than it was back in the spreadsheet days.”

COST REDUCTION

Nlyte solutions allow users to precisely manage data center changes, making it easier to control IT costs.

<p>\$2.45M on Power and Cooling</p> <p>\$2.05M on Depreciation</p> <p>\$2.45M on Hardware Maintenance</p>	<p>€500K on Power Consumption</p>	<p>\$100K on Energy Cost (min)</p>	<p>\$1M on Hardware Maintenance</p>
---	---------------------------------------	--	---

TOTAL ANNUAL SAVINGS OF \$6.1M

Christian Kaess
Senior Hardware Planner
Amadeus Data Processing GmbH

“With the help of Nlyte, we could better allocate our power racks, raise the inlet temperatures on our racks from 17 degrees (Celsius) to 20 degrees, saving €500,000 per year. The hardware planning team earned the 'Amadeus Excellence Award' for the project.”

ACCELERATED PAYBACK

By implementing operational best practices and adopting Nlyte workflows, the results pay for themselves.

<p>1-Year Payback</p>		<p>3-Month Installation Payback 1-Year Payback</p>
-----------------------	--	--

“The savings from our initial consolidation paid for the install in just three months, and the cost savings we realized in the first year alone paid for our three-year software license.”

VP and General Manager
Data Center Operations, PNC Bank

INCREASED PRODUCTIVITY

Nlyte automates numerous data center operations and controls, so you are freed from mundane tasks to pursue what you do best.

AMADEUS

<p>Employee Days Saved Annually</p>	<p>Cost Savings per Employee per Year</p>
-------------------------------------	---

“What used to take an entire day we can now do in 30 minutes when it comes to allocating space for servers. Given that we install over 1,500 servers per year, that works out to over a month and a half of a worker's time per year saved with Nlyte.”

Christian Kaess
Senior Hardware Planner
Amadeus Data Processing GmbH

CAPACITY PLANNING SAVINGS

Nlyte allows users to quickly and easily visualize their data center's available capacity.

<p>32.5% on Workforce Hours</p>	<p>\$366K Annual Labor Cost Savings</p>	<p>\$7.6M on Deferred Build-Out</p>
-------------------------------------	---	---

STRANDED SERVER SAVINGS

Nlyte's auto-allocation technology eliminates resource mismatching to identify and isolate stranded servers and equipment.

	<p>50% Stranded Device Reduction</p>	<p>\$300K Annual Stranded Device Cost Savings</p>
--	--	---

ASSET LIFE EXTENSION

Advanced workflow capabilities improves asset lifecycle management to continually manage and reduce IT costs.

“With Nlyte, we not only freed up half a megawatt of power, but also extended the life of our data center from 5 years to 15 years. As a result, our CIO has been able to reallocate budgets from about 70% for operations and 30% for development to 40% for operations and 60% for building tools for the business.”

VP and General Manager
Data Center Operations, PNC Bank

<p>5 to 15 Years on Asset Life Extension</p>	<p>58% Operation Cost Reduction</p>	<p>Minimum 5 years on Asset Life Extension</p> <p>\$500K Deferred Spending</p>
--	---	--

“We used to feel we were running out of space in the data center. But running Nlyte over the past two years, we now know where all our hardware is, down to the cabling detail. We are able to intelligently place hardware to avoid hotspots. With Nlyte, we have now extended the life of our data center by at least five years.”
